Peace Public School

Annual Report 2024-25

It gives me immense pleasure to share the Annual Report of 2024-2025 with you.
Peace Public School is an institution of excellence dedicated to providing value-based education that nurtures young minds. Our primary aim is to instill values in students and make a difference in their lives. The school's curriculum is designed to promote the holistic development of students, focusing on academics, sports, extra-curricular activities and character development.

The children who are under our guidance are the focal point of our existence. We find new ways of igniting their minds every day by making learning more interesting at each step.
As we navigate the complexities of the 21st century, it is essential to bridge the gap between theoretical knowledge and practical application. To address this paradigm shift, we have taken proactive steps to revamp our curriculum. We have introduced seven skill subjects to empower our students with industry-specific skills, enhancing their employability and career prospects.
To further emphasize the importance of practical application, we have introduced No Bag Day from foundation year to class VIII. No Bag Day, a step away from rote learning provides hands on experience to students, fostering critical thinking, creativity and experiential learning, preparing them for future challenges. This report is a blueprint of the school's progress in terms of achievements and activities held during this year.

ACADEMICS: We are proud to share that 2023-2024 batch of Grade XII brought laurels for the school by their outstanding results.
